Super Erecta® Shelving System Flexible, Simple & Strong.

Super Erecta® Shelving System

The original wire storage system.

A storage system that defines the extent of space, Super Erecta's revolutionary concept was fresh and innovative from its start — nearly 30 years ago. It has continued to evolve, with nearly 100 highly specialized accessories, aimed at meeting the diversity of today's challenges.

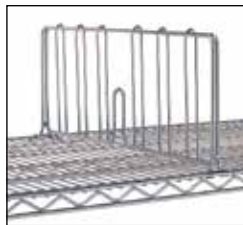

- **Adjustable:** Shelves can be repositioned at precise 25mm increments along the length of the numbered posts.
- **Unique Design:** Open-wire design minimizes dust accumulation, allows a free circulation of air, and greater visibility of stored items.
- **Mobile:** Full choice of caster types available for mobile applications.

Split Sleeves provide strong simple set-up and adjustment.

Super Erecta® Shelf Ledges

Super Erecta® Shelf Dividers

- **No tool assembly.**
- **25mm spacing.**
- **Full choice of caster types for mobile applications.**
- **Variety of accessories available to build your cart.**

Post for Stationary

Post for Accepting Casters
for Mobile Applications

Replacement Plastic Split Sleeves

One bag required per shelf; 4 pairs per bag.
Cat. No. — 9985

Post Clamps

Joins units together for maximum strength.
Plated. Cat. No. 9994Z

Foot Plates

Use to bolt units to the floor, or when a broader, more stable foot is desired. Replaces standard post leveling bolt.
Plated. Cat. No. — 9993Z
Stainless Steel. Cat. No. — 9993S

“S” Hooks

Use to eliminate two posts per adjacent unit. Two S-Hooks required per shelf.
Cat. No. — 9995Z

Wire Shelves

Packaging: Super Erecta Wire Shelves are packaged 4 to a carton (shelves sold separately) except 1524mm and 1829mm lengths and 760mm and 914mm widths, which are packaged 2 to a carton (shelves sold separately). Plastic sleeves and wedges are included with each shelf.

Metro Fact:
Genuine Metro!
 Metro created the original post-based shelving unit in 1965. Still today, Metro Super Erecta Shelving is recognized worldwide as the most popular commercial shelving system ever.

Note: 355mm shelving, foot plates must be used on freestanding units; on mobile units, maximum post height is 1370mm. It is not recommended to use 355mm shelving with posts higher than 1880mm.
Note: The actual length of the shelves is 3.2mm shorter than the nominal dimension shown. The actual depth of the shelves is 3.2mm greater than the nominal dimension shown.
Note: Metroseal 3 is not cart-washable.
Note: Super Erecta wire shelves up to 1219mm long can hold up to 800 lbs. (363kg) per shelf. Shelves longer than 1219mm or deeper than 610mm can hold up to 272kg per shelf.

SiteSelect™ Posts for Stem Casters

Stationary Super Erecta® SiteSelect posts are fitted with adjustable leveling bolts to compensate for uneven surfaces. Mobile posts come without leveling bolt assembly to accommodate stem casters. Special length posts are available.†

SiteSelect™ Posts are grooved at 25mm increments and numbered at 50mm increments. Posts are double-grooved every 203mm for easy identification.

STATIONARY				MOBILE		
Height mm	Approx. Pkg. Wt. kg	Cat. No. Chrome	Cat. No. Stainless	Height mm	Cat. No. Plated	Cat. No. Stainless

Super Adjustable™ Wire Shelves

Packaging: Wire shelves are packaged 4 to a carton (shelves sold separately) except 1524mm and 1829mm lengths and 760mm and 914mm widths, which are packaged 2 to a carton (shelves sold separately). Plastic sleeves and wedges are included with each shelf.

SiteSelect™ Posts are grooved at 25mm increments and numbered at 50mm increments. Posts are double-grooved every 203mm for easy identification.

Note: For availability of Super Adjustable™ Shelving not listed above, contact your Metro representative.

SiteSelect™ Posts for Stem Casters

Stationary Super Erecta® SiteSelect posts are fitted with adjustable leveling bolts to compensate for uneven surfaces. Mobile posts come without leveling bolt assembly to accommodate stem casters. Special length posts are available.†

2454	2.5	**96P	—			

†Height includes leveling bolt and cap.

**Stainless stationary post includes stainless leveling bolt.

**96P should not be used on units less than 610mm deep. Consult VWR representative for alternate recommendations.

†Note: Special length posts are available, priced at next higher length plus a cutting charge.

Post lengths to be specified as cut to a round number, ie: 74P cut to 1753mm . . . This will result in an overall post height with adjustment of 1762mm to 1775mm.

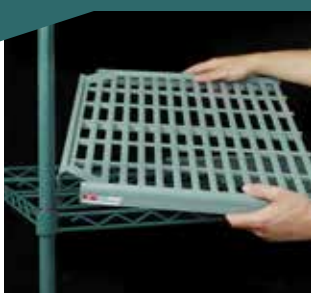

Post Boots with *Microban® Product Protection — Patent Pending. Seals out moisture and protects the post from corrosion in areas where floors are mopped regularly. Easily slips over the bottom 127mm of a stationary post. Built-in Microban

Coated Shelves with Optional Removable Mats

Super Erecta Pro™
Durable & cleanable alternative to basic wire.

Easy to clean.

Lift-off mats can be easily removed and washed by hand or in a wash machine.

Prolonged durability.

Polymer shelf mats withstand daily abuse from containers and sharp edges. Robust design provides the strength and rigidity of Super Erecta...holds up to 363kg per shelf.

Epoxy coated Super Erecta-style frames with removable polymer shelf mats.

Stay cleaner between cleanings.

Polymer shelf mats and Metroseal 3 epoxy coated shelf frames and posts have built-in Microban® antimicrobial product protection.

*MICROBAN® antimicrobial product protection helps keep shelves "cleaner between cleanings" by inhibiting the growth of mold, mildew, fungus, and bacteria that cause odors and stains on the shelf surface.

MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban Products Company, Huntersville, NC.

Interchangeable.

Super Erecta Pro shelves can be configured with traditional shelf and accessory options on the same unit for maximum flexibility.

WITH NO ADDED
CONSTRUCTION
COSTS.

qwikTRAK key facts

The aluminum and stainless steel floor tracks provide a smooth, gliding surface for mobile units.

- Mobile units are designed to move easily and store heavy weight loads. Super Adjustable, and Super Erecta mobile qwikTRAK units can hold up to 907kg.
- Floor tracks protect the floors from wear and tear and do not require to be mounted to the floor.
- Floor tracks compensate for rough or choppy floor surfaces.

Double-Deep Configurations can be created where two systems are joined together to increase the overall depth of the storage system for even greater storage capacity.

Choose the shelving type based on the application.

Both single- and double-deep systems can be used with Metro Super Erecta or Super Adjustable Super Erecta shelving.

THE SECRET TO
HIGH-DENSITY
STORAGE IS THE
**ACTIVE
AISLE**
CONCEPT.

Top-Track® High-Density Storage

ADA Compliant

Top-Track key facts

The guide track is positioned above the shelving system.

- Floors are easy to clean.
- Utility carts can easily be rolled into and out of the active aisle.
- The guide track compensates for uneven floor surfaces and keeps units in alignment.
- Mobile units are designed to address medium-duty applications. The weight capacity of a Top-Track mobile unit is 410kg.

Choose the shelving type based on your application.

Top-Track (single deep) can be used with Metro Super Erecta or Super Adjustable Super Erecta shelving.

Double-Deep configurations can be created when two systems are joined together to increase the overall depth of the storage system for even greater storage capacity. Double-Deep Top-Track is only available for Super Erecta and Super Adjustable Super Erecta style shelving.

- Note 1:** Rigid casters are held in position by a connecting channel. When ordering rigid casters, shelf width must be known.
- Note 2:** Load Height for all 5M and 5MP casters — 155 ± 1.5mm.
- Note 3:** Load Height for 4LD caster — 118 ± 1.5mm.
- Note 4:** Load Height for 5LD caster — 143 ± 1.5mm.
- Note 5:** Brakes are foot-operated.

Rigid stem casters are often ordered two per unit for improved tracking and handling. Rigid caster channels are provided with each two rigid stem casters at no charge.

Polymer Casters

Innovative polymer stem casters offer corrosion resistance and enhanced durability. Appropriate for all medium-duty mobile applications. Donut bumpers included.

- All-polymer horn, stainless steel axle and hardware.
- 127mm diameter polyurethane wheel, sleeve-style axle bearing and an optional toe-operated brake mechanism.
- Polyurethane, flat wheel tread.

Mix and Match basket shelves with these Super Erecta components to customize a cart.

Wall Mount Shelving System

Organized, efficient wall space at work.

A unique storage and work station system for often underutilized wall space.

Wall-mounted tracks are the foundation for attaching . . .

- Productivity stations with grids, accessories, and storage shelves
- Wall Shelving using uprights and Metro shelves
- Customizable storage space using combinations of shelving, grids, and specialized accessories

Flexible, Robust Design: Wall tracks and uprights are designed to interface with wood studs, plywood, concrete, and other suitable wall structures.

Easy to Adapt: Uprights and grid brackets can be easily repositioned along the track before being fastened to the wall. Shelves and accessories are easy to add and remove.

Easy to Install: Once the tracks are installed level, shelving and task stations can be quickly configured.

Easy to Clean: Shelves, shelf supports, and grids can easily be removed for thorough cleaning of walls. Wall tracks and uprights can easily be wiped clean.

Durable Finishes: Super Erecta Brite for dry environments; Metroseal 3 epoxy for wet or damp environments with built-in Microban® antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and fungus that cause odors and product degradation.

Keep out!

Security Units

Protect valuable materials and sensitive items from loss or pilferage.

- **Ready View of Contents:** Heavy-gauge open wire construction keeps contents visible at all times, making it easy to check inventory.
- **Optional Adjustable Intermediate Shelves:** Patented easily adjustable shelf designs – Super Adjustable Super Erecta allows flexibility to meet changing needs. Can be positioned in 25mm increments along the entire height of post.
- **Double Door:** Each door opens 270 degrees and can be secured along the sides of the unit.
- **Shipped Knocked-Down:** Saves on freight costs. Easily assembled.

Ordering Guide for Security Units

DRY ENVIRONMENTS

WET ENVIRONMENTS

1) Choose the right finish and shelving style based on the usage environment and/or cleaning methods.	Super Erecta Chrome Finish	Super Erecta Metroseal 3 Finish	Super Erecta Type 304 Stainless Steel Finish
Corrosion protection	N/A	Corrosion Resistant	Corrosion Proof
NSF Listed	YES	YES	YES
2) Choose from Stationary and Mobile Options.

5MDA

5MDBA

5PC

5PCB

Optional Locking or Non-Locking Casters

See Page 19 for part numbers.

Metro Tip:

For highly corrosive environments, choose casters constructed of appropriate materials. While most wheels are corrosion resistant, the horns and axles are not. Select from a variety of Metro casters with polymer and stainless components.

Super Erecta® Shelf Stationary Security — 1695mm high
Intermediate shelves are not included with base models and must be ordered separately. See page 5 for intermediate shelf options.

SEC55DC shown with optional Super Adjustable intermediate shelves (sold separately). Doors rotate 270° and can be secured to the sides of the cart while contents are being loaded on the shelves.

Casters: 5MP and 5MPB (with locking brake) feature a polyurethane tread. 5PC and 5PCB (with locking brake) casters feature a polymer horn and resist rusting. They are recommended for high-moisture environments. Large casters can create a tipping hazard. On security units using 457mm deep shelving, do not use casters larger than 127mm in diameter. Overall height: Models with 5MP casters — 1726mm high. Models with 5PC casters — 1739mm high.

Chrome and Metroseal 1739mm high

Chrome and Metroseal 3 models feature aluminum dollies with wraparound bumpers and 127mm diameter casters.
